

How to Make the Eardrum Model

A. Preparation

1. These are the materials that make up the ear model: shoebox, plastic cling wrap, string and pingpong ball

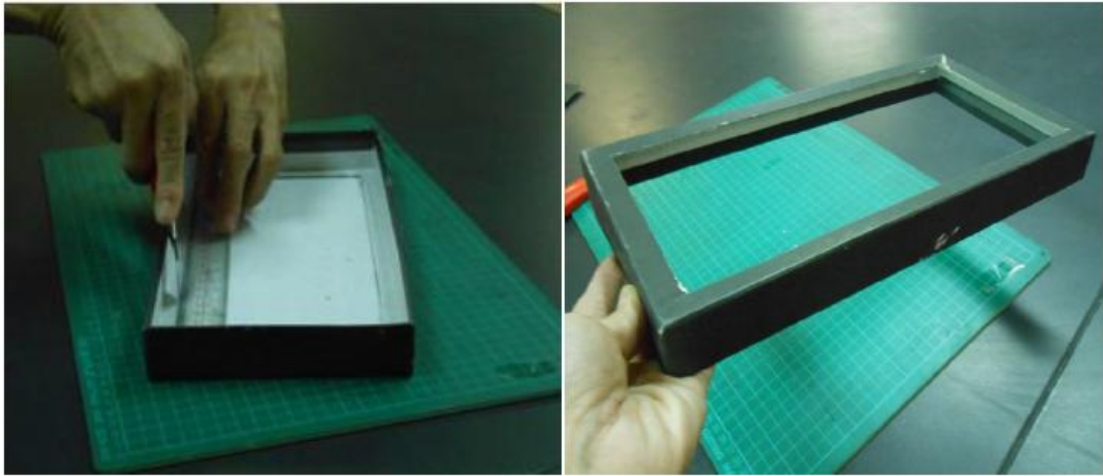

2. These are the tools to be used for making the model: scissors, cutter, transparent tape and ruler

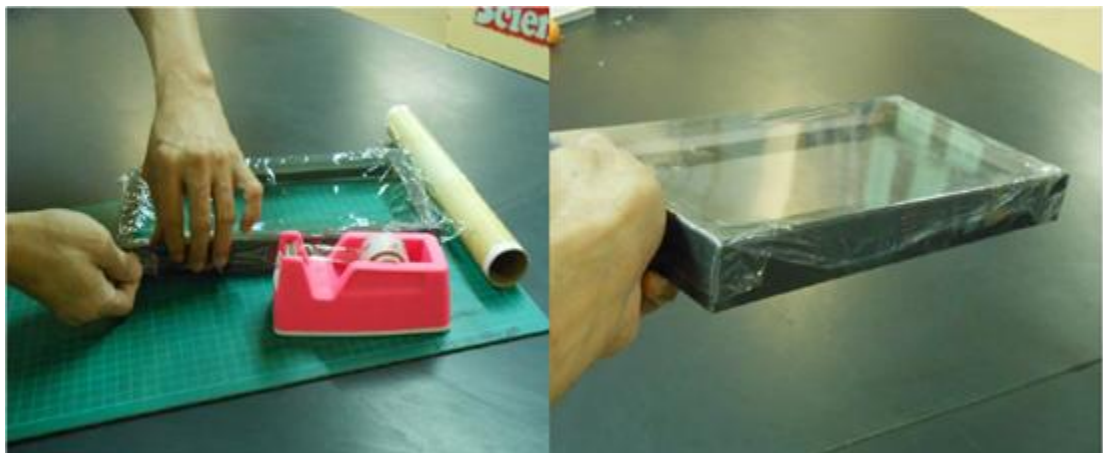

B. Procedure

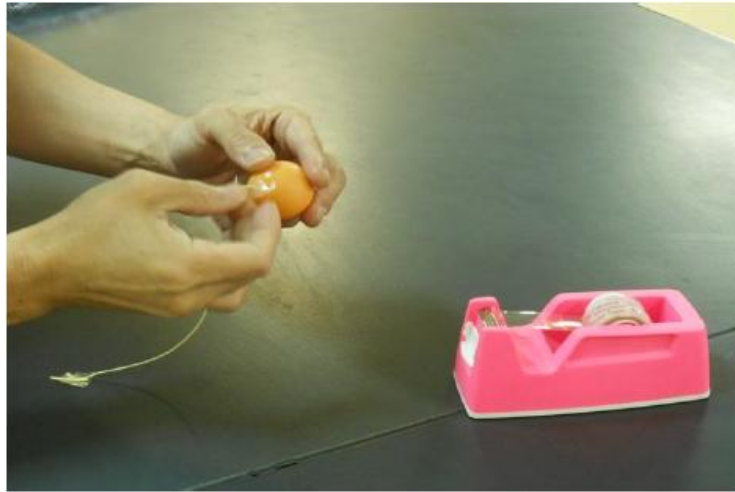

- 1. Cut the sides of the shoebox cover to form a rectangular frame as shown.**

- 2. Fasten the cling wrap plastic sheet on the rectangular frame. Be sure that the plastic sheet is stretched tightly across the frame as shown on the right.**

3. **Attach a string to the pingpong ball with a transparent tape as shown.**

4. **Fasten the other end of the string on the side of the rectangular frame.**

5. **Now your Ear Model is now ready for tryout! Watch the video to see how it is used.**
